

### Product Description

**AT20** is a Lead Free Extra Heavy Duty PVC Pipe Wrap & Protection Tape

### Product Features

- A lead-free high grade polymeric PPVC backing to 440 Micron
- High performance cross-linked solvent based rubber-resin adhesive
- Good thermal stability to 80° C
- Special corrosion-resistant rubber adhesive system
- Colour range— Black (White ex overseas, firm order)
- Custom slit to order in widths 6mm to 1,350mm x 33 Metres

### Benefits

- ✓ A very tough polymeric PPVC backing providing excellent scuff and abrasion resistance, 200% elongation at break
- ✓ Thick, hard-wearing and durable with a proven track record
- ✓ Very high abrasion resistance
- ✓ Good UV and water resistance
- ✓ Non corrosive and long lasting adhesive system
- ✓ Once in situ AT20 offers flame retardant properties and is auto-extinguishing
- ✓ RoHS compliant

### Key Markets

- Building & Construction
- Pipe laying, mining and resources
- Agriculture
- Marine and offshore

### Applications

- Pipe protection as an over-wrap to protect pipes from mechanical damage and corrosion for above and underground pipework
- Prevention of electrolysis and galvanic action between dissimilar metals, particularly in the roofing industry for use on purlins
- Extra heavy duty permanent protection tape on a range of surfaces

#### DISCLAIMER:

**Values:** All values presented have been determined by standard test methods and are average values only.

**Recommendations:** Whilst we are happy to recommend products from our range for applications, it is imperative that the customer/user complete their own tests to determine suitability for their application under "working conditions" and if longevity is important, that ageing tests be carried out.

**Warranty:** We can only warranty our products to the level that they are consistent with our Product Information Sheet values

**BUT CANNOT accept any responsibility or liability direct or consequential for loss or damage caused as a result of our recommendations.**
