

Product Description

FastFixers are Hot Melt Glue Dots on a siliconised paper release liner. Available in two grades of adhesive type "Regular" and "Secure". They are packed in a special dispenser box containing 5,000 Dots and they are distanced to facilitate transfer to an item.

Product Features

- A dot of clear adhesive of around 5mm in diameter evenly spaced on a continuous release liner
- Dispenser box designed to sit on a hard surface with fold-out stabilising wings and a mitred corner to act as the transfer point of the adhesive dot to the first substrate
- Two grades of adhesive:
 - Regular** This for applications where clean-removability is the higher priority
 - Secure** This for applications requiring greater holding power
- Both grades are designed to clean-remove from stable surfaces thought testing required on delicate surfaces (note that on porous surfaces they can bleed and lead to staining over time)
- Other formats available ex overseas against firm order (higher and lower adhesive types and both smaller and larger adhesive dots)

Benefits

- ✓ Quick and easy to apply
- ✓ Safe for use in all locations and not requiring expensive application equipment, so lend themselves for piece work in the order fulfilment and mailing industries which can be done in remote locations
- ✓ Since a pre-determined and regular amount of adhesive it makes it easy to trial and prove a method of application for any situation and then accurately cost it
- ✓ Dispenser box protects the product during storage and transit but also makes it easy to apply (however, note that some people actually prefer taking the product from the box to apply and this determined by the application)

Key Markets

- Mailing houses, order fulfilment services
- Print finishing, advertising, Point of Sale and Display
- Exhibition, hospitality and events businesses
- Holding plastic Credit/Membership Cards to mail-outs (note there is alternate technology for machine application, contact us for further details)
- Scrapbooking, craft and schools
- Disability support businesses that provide third party services to industry

DISCLAIMER:

Values: All values presented have been determined by standard test methods and are average values only.

Recommendations: Whilst we are happy to recommend products from our range for applications, it is imperative that the customer/user complete their own tests to determine suitability for their application under "working conditions" and if longevity is important, that ageing tests be carried out.

Warranty: We can only warranty our products to the level that they are consistent with our Product Information Sheet values

BUT CANNOT accept any responsibility or liability direct or consequential for loss or damage caused as a result of our recommendations.
